DETAILED ACTION

Election/Restrictions

1. Newly submitted claim 48 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: New claim 48 is a subcombination that is usable with the subcombination of claims 1-47. Claim 48 is directed toward a method of predicting attack on an omen, while claims 1-47 are directed toward managing information with a specific data storage method, but does not collect underground information for example.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 48 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 4-6, 8-24, 27-29, and 31-47, are rejected under 35 U.S.C. 102(b) as being anticipated by Huff et al., International Publication Number WO 99/57625.

With regard to claims 1, 9, 10, 15, 16, 21, 24, 28, 29, 32, 33, 39, 44, and 47, Huff discloses a medium which performs the steps of monitoring communication requests (page 4 lines 17-22), outputting a notification in case of an abnormality (page 5 lines 2-

Art Unit: 2134

5), selecting a countermeasure from a database (page 12 lines 15-21) which manages content of notification and corresponding countermeasure (page 12 lines 26-29), and taking a countermeasure against the abnormality (page 5 lines 13-16) based on the selected countermeasure (page 5 lines 13-14), an information collection unit collecting kind (page 20 lines 8-26) content (page 21 lines 14-15) order (page 20 lines 23-26) and time information (page 17 lines 25-28) of multiple proceeding communications, such that the information is collected through an attack caused by induction (3 failed login attempts), so that the collected information is analyzed to be recognized as an attack pattern to be used to predict a future attack which may occur (chase mission, pages 21-22), and a reflecting unit which reflects the information to a database (page 21 lines 6-13) which selects a countermeasure based on mounting information and security information (page 5 lines 9-16).

With regard to claims 4, 8, 27, and 31, Huff discloses the configuration can be set (page 12 lines 1-15, lines 21-29).

With regard to claims 5, 6, 14, 28, and 37, Huff discloses multiple systems networked together (page 22 lines 20-24).

With regard to claims 11-13, 17, 19, 22, 34-36, 40, 42, and 45, Huff discloses the security server is available through the Internet (page 9 lines 1-16, page 12 lines 21-29).

With regard to claim 18, 20, 41, and 43, Huff discloses the request is in response to a request of a user (page 17 lines 14-22).

With regard to claims 23 and 46, Huff discloses a dummy database (page 21 lines 22-25).

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
